

Weight loss management. Reinvented.

Allurion
VIRTUAL CARE SUITE

The first remote monitoring solution
dedicated to weight loss

Allurion Virtual Care Suite comprises devices and digital tools designed to maximize your care to weight loss patients.

Whichever treatment plan your patients are on, gastric balloon, surgical, medical or nutritional, you're able to work closely with them to monitor, manage and customise their weight loss program - in real-time, to deliver real-life results.

Real-time
