Welcome Address

Dear Colleagues and Friends,

As President of IFSO-EC, it is my great pleasure and honor to welcome you to the **10th European Chapter Congress** in Maastricht, The Netherlands, May 4-7, 2022.

This “**Zoom Forward 22 Congress**” is a new Joint Congress on obesity between the European Association of the Study of Obesity and the European Chapter of the International Federation for the Surgery of Obesity.

For a few years, joint Congresses joining medical and surgical societies have reached a level of high quality, and the last one in Göteborg in 2016 was a great friendly success.

Zoom Forward in Maastricht has been up mostly prepared for you by the local and the IFSO-EC International Scientific Committees and the Executive Council. Lectures, workshops, Multidisciplinary, topic, plenary, and abstract sessions will cover all different and interesting aspects of obesity management.

Moreover, innovations and research findings will be highlighted, offering a platform for exchanging ideas among physicians, surgeons but also young investigators, and allied health care members.

After Prague last year, this will be the first opportunity to meet at the end of this pandemia and we may now hope that life will become as usual.

Maastricht has historically been the source of the European Community and remains a city with a rich past and an exciting present. We are happy to propose now this opportunity to meet with friends in person and would be glad to gather our IFSO-EC family like in the past or even better!

Jean-Marc Chevallier
IFSO-EC President

Welcome Address

Dear Friends and Colleagues,

It is my great privilege and pleasure to welcome you to the 10th Congress of the International Federation for the Surgery of Obesity and Metabolic Disorders – European Chapter (IFSO-EC) and the 2nd joined Congress of IFSO-EC and The European Association for the Study of Obesity (EASO).

In 2016 in Gothenburg, the first joined Congress of IFSO-EC and EASO was organized as the European Obesity Summit and was well received by both associations and their participating delegates. Already 3 years ago, the decision was made by both Executive Boards of IFSO-EC and EASO to organize this joint congress more often.

Zoom Forward is the new brand of the joint Congress on Obesity by IFSO-EC and EASO. We are proud to present you a great scientific program, where our goal was to offer a fully integrated program, covering many aspects of obesity research and treatment. We owe a lot of gratitude to the Scientific Committees and the Program Organizing Committee, who have put in a lot of time and effort in developing the Program. Although the last IFSO-EC Congress in Prague was not so long ago, we were surprised by the amount of research that our scientific community wanted to present at Zoom Forward. There are numerous abstract sessions for oral presentations and many more poster presentations. For the most appealing abstracts submitted to IFSO-EC we planned a best abstract session, chaired by our President Jean Marc Chevallier. Also, there are many attractive sessions with expert presenters and keynote lectures and an educational session on surgical techniques and training and residency programs to improve outcome and safety and decrease practice variance. You will find dedicated sessions in your own field, but I would like to encourage you to have a good look at other less familiar parts of the program. There are many presentations and keynote lectures from leading researchers and clinicians in the broad field of Obesity, that might be of interest to you after all.

For the past two years, the entire world has been dominated by the Sars-Cov2 virus. It has disrupted our societies in an unprecedented way. Meeting friends and colleagues during (international) congresses was no longer possible. It is therefore, such a pleasure that the disappearance of Covid restrictions in Europe makes it possible to organize a large congress, where we can meet each other again in person. The number of registrations exceeds our expectations. For those who nevertheless cannot travel, this congress will also be offered online.

In addition to a great scientific program, the city of Maastricht has a lot to offer. It has a rich history with many places of interest. It is also the most Burgundian city in the Netherlands. It will certainly meet your requirements. On zoomforward22.org you can find out about the many possible activities in and around the city, in addition to your congress visit.

Welcome to Zoom Forward, welcome to Maastricht. I wish you a great Congress!

With kind regards,

Ronald Liem

Programme at a Glance

Track 1 Basic Science	Track 2 Behavioural and Public Health	Track 3 Childhood and Adolescent Obesity
--------------------------	--	---

Wednesday, May 4, 2022			
Room: Auditorium 1	Room: Auditorium 2	Room: 0.4	
Teaching Workshops (08:30-12:30)			
	Teaching Session: Addressing Obesity in Children - the Dutch approach 09:00-12:30	IFSO-EC Teaching Session - education and research - advanced techniques - hands on emerging and experimental techniques	
Coffee Break (10:15-10:30) →			
Lunch (12:00-12:30)			
Multidisciplinary and Topic Sessions (12:30-14:00)			
Multidisciplinary Session: Weight loss in special (Pharmacotherapy) groups	Topic Session: Determinants and predictors of outcome/ Clinical outcome	Accepted Symposium: Meaningful youth engagement - building healthier food and physical activity environments for current and future generations: a symposium of the COCREATE project	
Break (14:00-14:15)			
Multidisciplinary and Abstract Sessions (14:15-15:45)			
Topic Session: Timing Matters	EASO PAPFF WG Session: Effect of obesity treatment on Physical fitness and function	T5 Abstract Session: Surgical Techniques	
Coffee Break/Commercial Exhibition (15:45-16:15)			
Industry Supported Session - EASO 16:15-17:45	Are you e-Ready? 16:15-17:45		
Opening Plenary Session 17:45-18:30			
The long and winding road to precision medicine: Patients Phenotyping-Now and the Future			
Zoom Forward Opening Ceremony 18:30-19:00			
Zoom Forward Welcome Reception 19:00-21:00			

Track 4
Management and Intervention

Track 5
Metabolic Surgery

Wednesday, May 4, 2022

Room: 0.5

Room: 0.10

Room: 0.11

Teaching Workshops (08:30-12:30)

Canadian Adult Obesity
Management Clinical
Practice Guidelines;
International Adaptation
Pilot Project Workshop

EASO Nutrition Working
Group Teaching Workshop:
Obesity Management
in Primary Care; the role
of dietitians
08:45-12:00

EASO SAB Masterclass:
Metabolic phenotyping
in Maastricht
09:00-12:00

Lunch (12:00-12:30)

Multidisciplinary and Topic Sessions (12:30-14:00)

Topic Session: Role of food
environment to obesity
prevention
12:30-13:30

Topic Session: Obesity
in preschool children:
beyond the first 1000 days
12:30-13:30

Break (14:00-14:15)

Multidisciplinary and Abstract Sessions (14:15-15:45)

T2 Abstract Session: Mental
Health & Stigma

T4 Abstract Session:
Medical/Bariatric

Track 1 Basic Science	Track 2 Behavioural and Public Health	Track 3 Childhood and Adolescent Obesity
--------------------------	--	---

Thursday, May 5, 2022			
Room: Auditorium 1	Room: Auditorium 2	Room: 0.4	
Plenary Session (08:30–09:15)			
Towards personalized interventions: balancing (epi)genetics and environmental factors			
Topic and Abstract Sessions (09:30–11:00)			
Topic Session: Obesity management in specific patient groups	Topic Session: Indications for metabolic procedures	Accepted Symposium: The mapping and targeting of non-normative eating behaviours perpetuating obesity	
Coffee Break/Commercial Exhibition (11:00–11:30)			
Multidisciplinary and Abstract Sessions (11:30–13:00)			
Multidisciplinary Session: ‘All hands on deck’ for the treatment of children with obesity	Multidisciplinary Session: Debate in nutrition	T5 Abstract Session: Integrated Health and Bariatric Research	
Posters Viewing and Lunch (13:00–14:45)			
Industry Supported Session – EASO 13:15–14:45	Industry Supported Session – EASO 13:15–14:45		
Topic Plenary Sessions (15:00–15:45)			
Plenary Session: A year in public health		IFSO-EC Best Abstract Session 15:00–16:00	
Coffee Break/Commercial Exhibition (15:45–16:15)			
Accepted Symposia, Topic Sessions, Abstract Sessions (16:15–17:45)			
T1 Abstract Session: The Liver at the Crossroad of Metabolism	T2 Abstract Session: Policy and Nutrition	T5 Abstract Session: Long Term Results and Complications & Late Breaking Abstracts	
Plenary Session			
A year of advances in obesity in children and adolescents 17:45–18:30			

	Thursday, May 5, 2022		
	Room: 0.5	Room: 0.10	Room: 0.11
	Topic and Abstract Sessions (09:30-11:00)		
		Topic Session: The gut in the control of metabolism	EASO Session: Gaps and opportunities in obesity in adolescents: results from the ACTION Teens global study
	Coffee Break/Commercial Exhibition (11:00-11:30)		
	Multidisciplinary and Abstract Sessions (11:30-13:00)		
		T1: Abstract Session: Tackling Metabolism in Obesity	T4 Abstract Session: Obesity Risk Assessment and Management
	Posters Viewing and Lunch (13:00-14:45)		
	EASO General Council Meeting	Industry Supported Session - EASO 13:15-14:45	Industry Supported Session - IFSO-EC 13:15-14:45
	Topic Plenary Sessions (15:00-15:45)		
	Coffee Break/Commercial Exhibition (15:45-16:15)		
	Accepted Symposia, Topic Sessions, Abstract Sessions (16:15-17:45)		
	Pro's - Con's Session: Current Pro's and Con's in metabolic-bariatric surgery	T3 Abstract Session: Short and Long term Complications of Obesity in Children and Adolescents	T4 Abstract Session: Pharmacotherapy for obesity
	Special Meeting, Poster Sessions		
	IFSO-EC General Council Meeting 18:00-19:00		Poster Hall Posters Networking Reception: Track 1-2-5 18:00-19:00

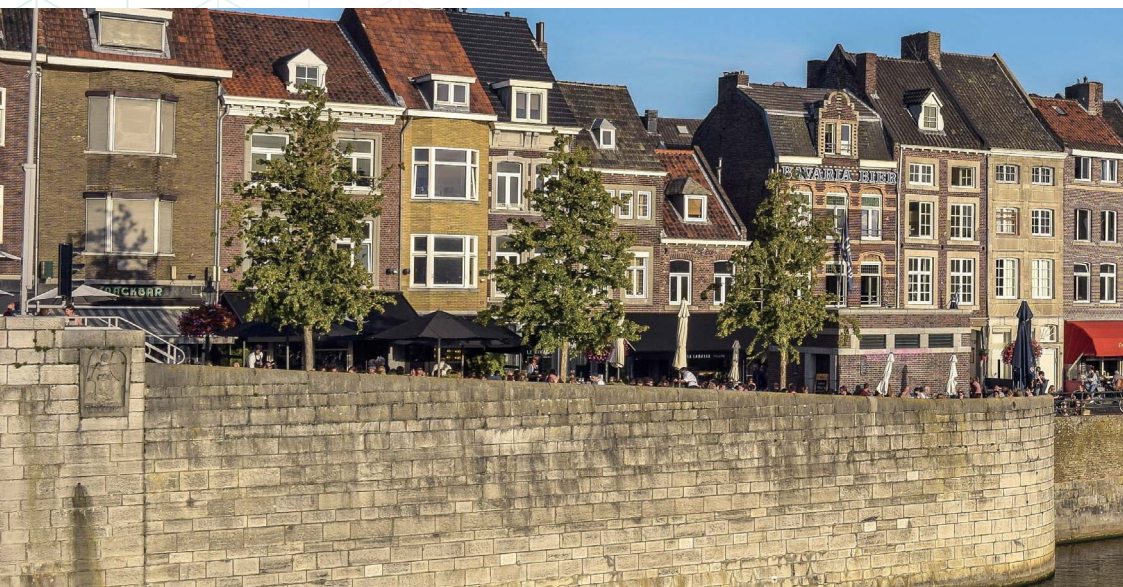

Track 1 Basic Science	Track 2 Behavioural and Public Health	Track 3 Childhood and Adolescent Obesity
--------------------------	--	---

Friday, May 6, 2022			
Room: Auditorium 1	Room: Auditorium 2	Room: 0.4	
Plenary Session (08:30–09:15)			
Cellular senescence in white adipose tissue: a therapeutic target to improve health?			
Topic and Abstract Sessions (09:30–11:00)			
Topic Session: Sex Matters	Topic Session: Eating disorders among children and adolescents with obesity	Accepted Symposium: Family interventions promoting healthy behaviours in children (0–10 years) to tackle childhood obesity	
Coffee Break/Commercial Exhibition (11:00–11:30)			
Multidisciplinary and Abstract Sessions (11:30–13:00)			
	T3 Abstract Session: Risk Factors for Obesity in Children and Adolescents	Accepted Symposium: The PhenFlex drink: a mixed-meal challenge test as a new standardized method to quantify health and intervention effects	
Lunch, Exhibition and Posters Viewing (13:00–15:00)			
Industry Supported Session – EASO 13:30–15:00	Industry Supported Session – EASO 13:15–14:45	EASO Early Career Network Awards Session 14:00–15:00	
Topic Plenary Sessions (15:00–15:45)			
How far are we from treating obesity to target? State-of-the-art of anti-obesity medications	Impact of obesity in adolescents and young adults on fertility 15:00–15:30		
Coffee Break/Commercial Exhibition (15:45–16:15)			
Abstract Sessions (16:15–17:45)			
T2 Abstract Session: Behaviour and Lifestyle	T4 Abstract Session: Effects of Obesity Interventions	EASO Early Career Network Best Thesis Award Session	
Plenary Session			
Treating side effects and complications after metabolic surgery 17:45–18:30			

Friday, May 6, 2022			
Room: 0.5		Room: 0.10	Room: 0.11
Topic and Abstract Sessions (09:30-11:00)			
		Topic Session: Settings based approaches to obesity prevention	Topic Session: Optimization of current standard techniques
Coffee Break/Commercial Exhibition (11:00-11:30)			
Multidisciplinary and Abstract Sessions (11:30-13:00)			
Topic Session: Revisional Surgery	Topic Session: Systems based approaches to obesity prevention: City-based case studies	Multidisciplinary Plenary Session: Update on Guidelines 11:30-13:15	
Lunch, Exhibition and Posters Viewing (13:00-15:00)			
Topic Session: National Plans on Obesity - From Policy to practice 13:30-15:00	Industry Supported Session - IFSO-EC 13:15-14:45		
Coffee Break/Commercial Exhibition (15:45-16:15)			
Abstract Sessions (16:15-17:45)			
	T5 Abstract Session: Predictors and Indications for Metabolic Bariatric Surgery	Young IFSO Session	
Poster Sessions			
		Poster Hall	
		Posters Networking Reception: Track 3-4-5 18:00-19:00	
		Closing Party 21:00-00:00	

Track 1 Basic Science	Track 2 Behavioural and Public Health	Track 3 Childhood and Adolescent Obesity
--------------------------	--	---

Saturday, May 7, 2022		
Room: Auditorium 1	Room: Auditorium 2	Room: 0.4
Plenary Session (08:30–09:15)		
Panel Discussion on Food Labelling		
Topic Sessions (09:30–11:00)		
Topic Session: Tailored dietary interventions	Topic Session: Physical Activity Environments	T1 Abstract Session: Multifaceted Aspects of Obesity
Coffee Break/Commercial Exhibition (11:00–11:30)		
Topic and Abstract Sessions (11:30–13:00)		
Topic Session: The multipotentiality of adipose tissue	Topic Session: Video session	Accepted Symposium: State influences on neural responses to food in overweight and eating disorders
Closing Plenary Lecture (13:00–14:00)		
Closing Plenary Lecture: Multidisciplinary Plenary		
Closing Remarks 14:00–14:30		

Saturday, May 7, 2022

Room: 0.5

Room: 0.10

Room: 0.11

Topic Sessions (09:30-11:00)

Topic Session: Community and systems approach to reducing obesity in children

Topic Session: Emerging and experimental techniques

Coffee Break/Commercial Exhibition (11:00-11:30)

Topic and Abstract Sessions (11:30-13:00)

T3 Abstract Session: Treatment and Management of Obesity in Children and Adolescents

Accepted Symposium: SWEET ZOOM. The role of sweeteners for obesity, health, safety, and sustainability

Programme in Detail

Wednesday, May 4, 2022	
08:30-12:30	Teaching Workshops
	Room: 0.4
08:30-12:30	IFSO-EC Teaching Session <i>Chairs: Bruno Dillemans (Belgium), Ralph Peterli (Switzerland)</i>
08:30-09:00	Best practice RYGB (circular & linear) <i>B Dillemans (Belgium) & E Hazebroek (Netherlands)</i>
09:00-09:30	Best practice Sleeve gastrectomy <i>L Angrisani (Italy) & S Nienhuijs (Netherlands)</i>
09:30-10:00	Best practice OAGB <i>T Poghosyan (France) & M Emous (Netherlands)</i>
10:00-10:30	Best practice SADI and BPD/DS <i>A Sanchez Pernaute (Spain) & R Peterli (Switzerland)</i>
10:30-11:10	Coffee break
11:10-11:30	How to establish a metabolic-bariatric surgical program in residency? <i>R Klaassen (Netherlands)</i>
11:30-11:50	Impact of surgical training on outcome <i>R. Sánchez-Santos (Spain)</i>
11:50-12:10	How to start with metabolic-bariatric surgery as an established surgeon? <i>B Dillemans (Belgium)</i>
12:10-12:30	How to establish a (dedicated) high volume bariatric-metabolic center? <i>I Janssen (Netherlands)</i>
12:00-12:30	Lunch, Exhibition and Posters Viewing

Wednesday	12:30–14:00	Multidisciplinary and Topic Sessions
		Room: Auditorium 2
	12:30–14:00	Topic Session: Determinants and predictors of outcome/Clinical outcome <i>Chairs: Wendy Brown (Australia), Johan Ottosson (Sweden)</i>
	12:30–12:45	Registries and how to implement new technology <i>W Brown (Australia)</i>
	12:45–13:00	Can we predict outcome? PRE-RECORDED <i>A Ghaferi (United States)</i>
	13:00–13:15	Core outcome set in metabolic-bariatric surgery <i>K Avery (United Kingdom)</i>
	13:15–13:30	PROM in metabolic-bariatric surgery New outcome measures <i>C de Vries (Netherlands)</i>
Thursday	13:30–13:45	Dutch Textbook Outcome <i>S Nienhuijs (Netherlands)</i>
	13:45–14:00	Swiss-Finnish Outcome Measure <i>P Salminen (Finland)</i>
Friday	14:15–15:45	Multidisciplinary and Abstract Sessions
		Room: 0.4
	14:15–15:45	T5 Abstract Session: Surgical Techniques <i>Chairs: Jerome Dargent (France), Moritz Felsenreich (Austria)</i>
	14:15–14:25	Predictive Factors for Gastroesophageal Reflux Disease after Conversion from Sleeve Gastrectomy to gastric bypass (ID 42) ONLINE <i>R Caiazzo (France)</i>
	14:25–14:35	Outcome of revisional procedures up to 14 years after sleeve gastrectomy: a single-center experience (ID 67) <i>A S Dirnberger (Switzerland)</i>
	14:35–14:45	Surgical aspects of sleeve gastrectomy are related to total weight loss and gastro-esophageal reflux symptoms at 2 years postoperatively (ID 59) <i>H Lyyjynen (Norway)</i>
	14:45–14:55	The Association of Helicobacter Pylori, Eradication and Early Complications of Laparoscopic Sleeve Gastrectomy (ID 61) <i>A Abu Abeid (Israel)</i>
	14:55–15:05	Conversion of vertical banded gastroplasty to Roux-en-Y gastric bypass: a retrospective comparison of laparoscopic vs. open conversion (ID 37) <i>K van Dam (Netherlands)</i>
Saturday	15:05–15:15	The Benefits of Banded over Non-Banded Roux-en-Y Gastric Bypass in Patients with Morbid Obesity: a multi-center study (ID 31) <i>M Jense (Netherlands)</i>

15:15-15:25	Serious adverse events related to omega gastric bypass with 2 meters biliopancreatic limb at 10 years: a prospective observational multicentric study (ID 40) ONLINE <i>R Caiazzo (France)</i>
15:25-15:35	Acid reflux is common in patients with gastroesophageal reflux disease after one-anastomosis gastric bypass (ID 20) <i>T Poghosyan (France)</i>
15:45-16:15	Coffee Break/Commercial Exhibition
Room: Auditorium 1	
16:15-17:45	Industry Supported Session - 1 / EASO
Room: Auditorium 2	
16:15-17:45	Are you E-Ready? <i>Chairs: Juan Pujol Rafols (Spain), Ronald Liem (Netherlands)</i>
16:15-16:30	Introduction; E-health and bariatrics the perfect dance partner <i>J Pujol Rafols (Spain)</i>
16:25-16:45	Digital platforms to track and improve the outcomes of your bariatric patients and how to implement them in your practice. Get Ready <i>V Bruni (Italy)</i> Go Further ONLINE <i>M S Kurian (United States)</i> Be patient <i>T Lafullarde (Belgium)</i>
16:45-17:00	Sensors, wearables, Artificial Intelligence... What does digital technology offer for patient's monitoring? <i>S Nienhuijs (Netherlands)</i>
17:00-17:15	The future of e-health in training and education ONLINE <i>S Purkayastha (United Kingdom)</i>
17:15-17:30	A glimpse of the FUTURE, Digital Health as an integral part of obesity treatment <i>N Müller (Germany)</i>
17:30-17:45	Debate

17:45-21:00 Opening Plenary Session

Room: Auditorium 1

17:45-18:30 The long and winding road to precision medicine: Patients Phenotyping - Now and the Future

08:30-09:15	Towards Personalized Interventions: Balancing Genetics and Environmental Factors <i>R Loos (Denmark)</i>
09:30-11:00	Topic and Abstract Sessions
	Room: Auditorium 2
09:30-11:00	Topic Session: Indications for metabolic procedures <i>Chairs: Francesco Rubino ONLINE (United Kingdom), Karin Dolezalova (Czech Republic)</i>
09:30-09:50	Is BMI still a credible measure to determine eligibility for surgery? <i>C LeRoux (Ireland)</i>
09:50-10:10	How to introduce Class I Obesity with T2DM as an indication for surgery in a Healthcare System and how to get patient referrals? <i>M Bueter (Switzerland)</i>
10:10-10:30	NAFLD/NASH <i>F Pattou (France)</i>
10:30-11:00	Discussion
11:00-11:30	Coffee Break/Commercial Exhibition
11:30-13:00	Multidisciplinary and Abstract Sessions
	Room: Auditorium 1
11:30-13:00	Multidisciplinary Session: 'All hands on deck' for the treatment of children with obesity <i>Chairs: Grace O'Malley (Ireland), Jens-Christian Holm (Denmark)</i>
11:30-12:00	Embedding social determinants in the treatment of children with obesity: The Dutch Approach <i>E van Mil (Netherlands)</i>
12:00-12:30	Medical options for treatment: GLP-1 agonists' <i>A Kelly (US)</i>
12:30-13:00	Metabolic-bariatric surgery in Children and Adolescents <i>T Olbers (Sweden)</i>

Wednesday

Thursday

Friday

Saturday

Wednesday	Room: 0.4	
	11:30-13:00	T5 Abstract Session: Integrated Health and Bariatric Research <i>Chairs: Eric Hazebroek (Netherlands), Bart van Wagenveld (UAE/ Netherlands)</i>
	11:30-11:40	The association of a decrease in fat-free mass after bariatric surgery with handgrip strength and cardiorespiratory fitness (ID 82) <i>R van der Meer (Netherlands)</i>
	11:40-11:50	Healthcare utilization and expenditures in patients with type 2 diabetes after bariatric surgery: a matched cohort study comparing bariatric surgery with non-surgical treatment (ID 7) <i>V Montpellier (Netherlands)</i>
Thursday	11:50-12:00	Medical and social determinants of undergoing bariatric surgery: is the population most at need operated? (ID 30) <i>V Montpellier (Netherlands)</i>
	12:00-12:10	The association between intestinal microbiome, obesity and cognitive functions in the elderly: the effect of regular exercise (ID 79) <i>P Forišek Paulová (Slovakia)</i>
	12:10-12:20	Data-driven subgroups of type 2 diabetes, metabolic response and renal risk profile after bariatric surgery (ID 3) <i>V Raverdy (France)</i>
	12:20-12:30	Physical activity, dietary intake and fat-free mass loss up to 3 months post-bariatric surgery: preliminary findings from the PANDA study (ID 50) <i>M Nuijten (Netherlands)</i>
	12:30-12:40	Comparative study exploring the dynamic process of an eating episode, food preferences and eating behavior in adult women with morbid obesity and after bariatric surgery (ID 66) ONLINE <i>A Dougkas (France)</i>
Friday	12:40-12:50	Nutritional Status and Supplement Intake during Pregnancy after Bariatric Surgery: A Prospective Cohort Study (ID 81) <i>L Heusschen (Netherlands)</i>
	12:50-13:00	Pregnancy outcomes following metabolic surgery: A single-centre cohort study investigating the effect of procedure type and surgery-to-conception interval on maternal and neonatal outcomes (ID 72) <i>J Makaronidis (United Kingdom)</i>
Saturday	13:00-15:00	Lunch, Exhibition and Posters Viewing
	Room: 0.11	
	13:15-14:45	Industry Supported Session - 1 / IFSO-EC

15:00–15:45	Topic Plenary Sessions
	Room: Auditorium 1
15:00–15:45	Plenary Lecture: A Year in Public Health <i>Chairs: Janas Harrington (Ireland), Jaap Seidell (Netherlands)</i>
15:00–15:20	Co-creation and Community Engagement in Obesity Prevention and Treatment <i>M Chin A Paw (Netherlands)</i>
15:20–15:40	Digital Technology Approaches to Prevention and Treatment of Obesity <i>R Crutzen (Netherlands)</i>
15:40–15:45	Q & A
	Room: 0.4
15:00–16:00	IFSO-EC Best Abstracts Session <i>Chairs: Jean-Marc Chevallier (France), Ronald Liem (Netherlands)</i>
15:00–15:10	AMOS2: Two-Year Outcomes After Bariatric surgery or Intensive Treatment in Adolescents with Severe Obesity –a Randomized Clinical Trial (ID 89) <i>K Järholm (Sweden)</i>
15:10–15:20	Impact of bariatric surgery on brain structure and function. The BARICO study (ID 45) <i>E Custers (Netherlands)</i>
15:20–15:30	Predicting severe complication risks after bariatric surgery: External validation of the Michigan Bariatric Surgery Collaborative prediction model using the Dutch Audit for Treatment of Obesity (ID 41) <i>E Akpinar (Netherlands)</i>
15:30–15:40	The impact of a combined nutritional-behavioural tele-counselling and supervised exercise intervention on weight loss and health outcomes following bariatric surgery: The BARI-LIFESTYLE randomised controlled trial (ID 36) <i>F Jassil (United Kingdom)</i>
15:40–15:50	Bariatric surgery may impair fertility in men independently of sex hormone profile, vitamin deficiencies or baseline gonadal and sexual functions (ID 43) ONLINE <i>R Caiazzo (France)</i>
15:50–16:00	Best abstracts evaluation and winner announcement
15:45–16:15	Coffee Break/Commercial Exhibition

Wednesday

Thursday

Friday

Saturday

Wednesday	16:15-17:45	Accepted Symposia, Topic Sessions, Abstract Sessions
		Room: 0.4
	16:15-17:45	T5 Abstract Session: Long Term Results and Complications & Late Breaking Abstracts <i>Chairs: Marloes Emous (Netherlands), Ralph Peterli (Switzerland)</i>
	16:15-16:25	The risk of esophageal and gastric cancer after bariatric surgery in a large national cohort (ID 9) <i>T Poghosyan (France)</i>
Thursday	16:25-16:35	Management of Gallstone Disease prior to and after Metabolic Surgery: A single-center observational study (ID 6) <i>A Susanna Dirnberger (Switzerland)</i>
	16:35-16:45	Gastric pouch emptying is faster in patients with gastro-intestinal complaints versus controls after Roux-en-Y gastric bypass (ID 108) <i>Y Burgh (Netherlands)</i>
	16:45-16:55	Fatigue as a long-term consequence of Roux-en-Y gastric bypass (ID 35) <i>J Sandvik (Norway)</i>
	16:55-17:05	Long-term weight loss, remission of comorbidities, food tolerance and quality of life (QoL) modifications after sleeve gastrectomy (SG) and one anastomosis gastric bypass (OAGB) (ID 64) <i>G Navarra (Italy)</i>
	17:05-17:15	Medical treatment of PostBariatric Hypoglycemia (PBH): retrospective data from daily practice (ID 22) <i>L de Heide (Netherlands)</i>
Friday	17:15-17:25	Video-fragment validation study of a new procedure based assessment in gastric bypass surgery <i>M Kaijser (Netherlands)</i>
	17:25-17:35	Evaluation of the lipid composition in mice transplanted with obese human microbiota using magnetic resonance spectroscopy <i>J Piraquive (France)</i>
		Room: 0.5
Saturday	16:15-17:45	Pro's - Con's Session: Current Pro's and Con's in metabolic-bariatric surgery <i>Chairs: Nicola Di Lorenzo (Italy), Paulina Salminen (Finland)</i>
	16:15-16:35	Bile Reflux after OAGB - Underreported in the literature: Will we see a lot more reoperations in the future? PRO: <i>N Sakran (Israel)</i> CON: <i>M Musella (Italy)</i>
	16:35-16:55	GERD limit of success of SADI-S? PRO: <i>J Himpens (Belgium)</i> CON: <i>A Torres (Spain)</i>
	16:55-17:15	Is SASI here to stay? PRO: <i>T Abouzeid (ET)</i> CON: <i>C Copaescu (Romania)</i>

17:15-17:35	Is Sleeve gastrectomy the new adjustable Gastric Band? PRO: R Cohen (Brasil) ONLINE CON: M De Luca (Italy)
17:35-17:45	Round up N Di Lorenzo (Italy)
17:45-19:00	Plenary Session, Special Meeting, Poster Sessions Room: Auditorium 1
17:45-18:30	Plenary Session: A year of advances in obesity in children and adolescents Chairs: Jennifer L Baker (Denmark), Ciliuas Fonvig (Denmark) A Year in Childhood and Adolescent Obesity Louise Baur (Australia) Room: 0.5
18:00-19:00	IFSO-EC General Council Meeting Poster Hall
18:00-19:00	IFSO-EC Posters Networking Reception: Track 5 Poster Session I

Wednesday	Friday, May 6, 2022	
	08:30-09:15	Plenary Session
	Room: Auditorium 1	
	08:30-09:15	Plenary Session: Cellular senescence in white adipose tissue: a therapeutic target to improve health? <i>Chairs: Jorn Sagen (Norway), Johan Jocken (Netherlands)</i>
Thursday	08:30-09:15	Adipocyte senescence in human white adipose tissue <i>Kirsty Spalding (Sweden)</i>
	09:30-11:00	Topic and Abstract Sessions
	Room: 0.11	
	09:30-11:00	Topic Session: Optimization of current standard techniques <i>Chairs: Maurizio De Luca (Italy), Vinod Menon (United Kingdom)</i>
Friday	09:30-09:45	Pouch size in RYGB <i>E Hazebroek (Netherlands)</i>
	09:45-10:00	Limb Length in OAGB <i>K Mahawar (United Kingdom)</i>
	10:00-10:15	The EEJ <i>T Olbers (Sweden)</i>
	10:15-10:30	Banded Sleeve <small>ONLINE</small> <i>J Fink (Germany)</i>
Saturday	10:30-10:45	Nissen-Sleeve <i>D Nocca (France)</i>
	10:45-11:00	Panel discussion <i>A Torres (Spain), J Himpens (Belgium), G Prager (Austria)</i>
	11:00-11:30	Coffee Break/Commercial Exhibition
	11:30-13:00	Multidisciplinary and Abstract Sessions
	Room: 0.5	
	11:30-13:00	Topic Session: Revisional Surgery <i>Chairs: Jan Wilem Greve (Netherlands), Karl Miller (Austria)</i>
	11:30-11:50	Marginal ulcer and Internal herniation <i>M Suter (Switzerland)</i>
	11:50-12:10	Leaks <i>R Ribeiro (Portugal)</i>
	12:10-12:30	Non-responders, weight regain and disease progression <i>A Garcia Ruiz de Gordejuela (Spain)</i>
	12:30-12:50	Benchmark outcomes in revisional metabolic-bariatric surgery <i>M Bueter (Switzerland)</i>

Room: 0.11	
11:30-13:15	Multidisciplinary Session: Update on Guidelines <i>Chair: Volkan Yumuk (Turkey)</i>
11:30-11:45	Clinical impact of the concept of obesity as an ABCD <i>J Mechanick (US)</i>
11:45-12:00	What's new in the Canadian Clinical Practice Guidelines <i>A Sharma (Canada)</i>
12:00-12:15	EASO medical nutrition therapy recommendations <i>M Hassapidou (Greece)</i>
12:15-12:30	ERABS 2021 update <i>E Stenberg (Sweden)</i>
12:30-12:45	Post-bariatric body contouring surgery / Body-Q <i>A Pusic (US)</i>
12:45-13:00	MDT approach to screening, indication and follow-up <i>V Yumuk (Turkey)</i>
13:00-13:15	What else do we need? <i>L Busetto (Italy)</i>
13:00-15:00 Lunch, Exhibition and Poster viewing	
Room: 0.10	
13:15-14:45	Industry Supported Session - 2 / IFSO-EC
15:00-15:45	Topic Plenary Sessions
Room: Auditorium 1	
15:00-15:45	How far are we from treating obesity to target? State-of-the-art of anti-obesity medications <i>Chairs: Dror Dicker (Israel), Bart Van der Schueren (Belgium)</i>
15:00-15:20	Panel discussion <i>D Dicker (Israel)</i>
15:20-15:40	Panel discussion <i>J Wilding (UK)</i>
15:40-15:45	Q & A
15:45-16:15 Coffee Break/Commercial Exhibition	

Wednesday

Thursday

Friday

Saturday

Wednesday	16:15–17:45	Abstract Sessions
	Room: 0.10	
	16:15–17:45	T5 Abstract Session: Predictors and Indications for Metabolic Bariatric Surgery <i>Chairs: Maurizio De Luca (Italy)</i>
Thursday	16:15–16:25	"Do we have appropriate non-invasive markers to evaluate liver disease in morbidly obese people candidates for BS?" & "Can we assess the contribution of inflammatory events to impaired liver function in morbidly obese patients?" (ID 112 + ID 115) <i>T Pintar (Slovenia)</i>
	16:25–16:35	Genetic variants associated with weight loss and metabolic outcomes after bariatric surgery: a systematic review (ID 73) <i>R van der Meer (Netherlands)</i>
	16:35–16:45	Easy to use and interpretable model based on artificial intelligence for predicting 5-year weight trajectories after bariatric surgery (ID 101) <i>P Saux (France)</i>
	16:45–16:55	The Cleveland Clinic Behavioral Rating System does not predict weight loss after bariatric surgery (ID 19) <i>A Jacobs (Netherlands)</i>
	16:55–17:05	Predictors of psychological functioning after bariatric surgery (ID 12) <i>P Dijkhorst (Netherlands)</i>
	17:05–17:15	A Systematic Review of Bariatric Surgery in Patients with Obesity and Type 1 Diabetes Mellitus (ID 90) <i>S Appel (United Kingdom)</i>
	17:15–17:25	The Need for Objective Physical Activity Measurements in Routine Bariatric Care (ID 91) <i>E Kuipers (Netherlands)</i>
Friday	17:25–17:35	Improved weight loss a decade after Roux-en-Y gastric bypass in patients attending a postoperative education program in groups (ID 24) <i>J Sandvik (Norway)</i>
	17:35–17:45	Getting back on track: experiences of patients and interdisciplinary teams with an intervention for weight regain after bariatric surgery (ID 77) <i>V Voorwinde (Netherlands)</i>
	Room: 0.11	
Saturday	16:15–17:45	Young IFSO Session <i>Chairs: Moritz Felsenreich (Austria), Roxanna Zakeri (United Kingdom)</i>
	16:15–16:30	Targeting ghrelin to maximise bariatric surgery outcomes: A randomised, double-blind, placebo-controlled crossover study of ghrelin o-acyltransferase inhibition in people with suboptimal weight loss after bariatric surgery <i>R Zakeri (United Kingdom)</i>
	16:30–16:45	The importance of language in the treatment of obesity <i>A Sudlow (United Kingdom)</i>

16:45-17:00	Revisional Surgery After One Anastomosis Bypass: An Italian Multi-institutional Survey <small>ONLINE</small> <i>A Vitiello (Italy)</i>
17:00-17:10	Impact of preoperative weight loss on postoperative weight loss revealed from a large nationwide quality registry (ID 85) <i>Y Lodewijks (Netherlands)</i>
17:10-17:20	Impact of NASH on early postoperative outcomes after bariatric surgery (ID 109) <i>P Bauvin (France)</i>
17:20-17:30	Laparoscopic Roux-en-Y Gastric Bypass in ambulatory care setting: results of 400 patients (ID 13) <i>S Kleipool (Netherlands)</i>
17:30-17:40	Discussion

17:45-19:00	Plenary Session, Poster Sessions
	Room: Auditorium 1

17:45-18:30	Plenary Session: Treating side effects and complications after metabolic surgery <i>Chair: Mikael Wirén (Sweden)</i>
--------------------	--

17:45-18:00	Chronic pain <i>T Mala (Norway)</i>
-------------	---

18:00-18:15	Motility disorders <small>ONLINE</small> <i>M Fox (Switzerland)</i>
-------------	---

18:15-18:30	Post bariatric psychiatric disorders and addiction <i>C Leue (Netherlands)</i>
-------------	--

	Poster Hall
--	--------------------

18:00-19:00	IFSO-EC Posters Networking Reception: Track 5 Poster Session II
--------------------	--

	Rebelle Maastricht
--	---------------------------

21:00-00:00	Closing Party
--------------------	----------------------

Wednesday

Thursday

Friday

Saturday

Wednesday	Saturday, May 7, 2022	
	08:30–09:15	Plenary Session
		Room: Auditorium 1
	08:30–09:15	Plenary Session: Panel Discussion on Food Labelling <i>Chairs: Johanna Ralston (US), Mette Svendsen (Norway)</i>
Thursday	08:30–09:15	Panel discussion <i>J Seidell (Netherlands), A Garde (UK), N Gokani (UK), C Julia (France)</i>
	09:30–11:00	Topic Sessions
		Room: 0.11
	09:30–11:00	Topic Session: Emerging and experimental techniques <i>Chairs: Christine Stier (Germany), Bernd Schultes (Switzerland)</i>
	09:30–09:40	Why are there so many different procedures? What do we try to solve? Steps of research? <i>G Prager (Austria)</i>
	09:40–09:50	Endoscopic gastric plications <i>N Bouvy (Netherlands)</i>
	09:50–10:00	Gastric Artery Embolization <i>M Fried (Czech Republic)</i>
	10:00–10:10	Bariclip <i>R Caiazzo (France)</i>
	10:10–10:20	Duodeno-Jejunal Bypass Liner <i>R Caiazzo (France)</i>
	10:20–10:30	Duodenal mucosal ablation <i>J Devière (Belgium)</i>
Friday	10:30–10:40	Functional Laparoscopic Roux-en-Y Gastric Bypass with Fundectomy and Gastric Remnant Exploration <i>M A Zappa (Italy)</i>
	10:40–10:50	A novel approach to glycemic control in type 2 diabetes mellitus, partial jejunal diversion <i>K Dolezalova (Czech Republic)</i>
Saturday	11:00–11:30	Coffee Break/Commercial Exhibition
	11:30–13:00	Topic and Abstract Sessions
		Room: Auditorium 2
	11:30–13:00	Topic Session: Video session <i>Chairs: Sylvia Weiner, Nasser Sakran</i>
	11:30–11:40	Laparoscopic small bowel length measurement in bariatric surgery using a hand-over-hand technique with marked graspers: an ex vivo experiment (ID 1) <i>N Slagter (Netherlands)</i>

11:40-11:50	Primary Obesity Surgery Endoscopic 2.0 procedure combined with lifestyle coaching: experiences in a bariatric center (ID 5) <i>I Palm-Meinders (Netherlands)</i>
11:50-12:00	The swallowable intragastric balloon: a safe and effective weight loss treatment for people suffering from overweight and obesity (ID 32) <i>M Jense (Netherlands)</i>
12:00-12:10	Postprandial pouch, gallbladder and gastric remnant volume visualized with MRI in patients after Roux-en-Y Gastric Bypass surgery (ID 111) <i>Y Burgh (Netherlands)</i>
12:10-12:20	Roux-en-Y versus One Anastomosis Gastric Bypass as Redo-Operations following Sleeve Gastrectomy - A single center retrospective study with 123 patients (ID 88) <i>K P Rheinwalt (Germany)</i>
12:20-12:30	Mediastinal abscess 9 years after Roux-en-Y gastric bypass (ID 110) <i>S Viskens (Belgium)</i>
12:30-12:40	Intraoperative diagnosis of Taeniosis during One anastomosis/Mini- gastric bypass (OAGB/MGB) for morbid obesity (ID 49) ONLINE <i>A Vitiello (Italy)</i>
12:40-12:50	Refractory reflux and gastroparesis in type I diabetes patient after sleeve gastrectomy (ID 95) <i>M Vandeputte (Belgium)</i>
12:50-13:00	Atypical obstruction after Gastric Banding (ID 92) <i>S Van Hoef (Belgium)</i>

13:00-14:30 Closing Plenary Lecture, Closing Remarks

Room: Auditorium 1

13:00-14:00 Closing Plenary Lecture: Multidisciplinary Plenary *Chairs: Jean-Marc Chevallier (France), Jason Halford (UK)*

13:00-13:25 **Energy expenditure and body composition through the life course; Lessons from doubly labelled water**
K Westerterp (Netherlands)

13:25-13:50 **Obesity, NAFLD and Surgery**
F Pattou (France)

13:50-14:00 **Discussion**

Room: Auditorium 1

14:00-14:30 Closing Remarks

Wednesday

Thursday

Friday

Saturday

IFSO-EC Poster Session I

Poster Networking I

Thursday, May 5, 2022, 18:00-19:00

- P05.01 Efficacy and safety of mRNA COVID19 vaccines on subjects with morbid obesity undergoing bariatric surgery (ID48)**
Antonio Vitiello, Giovanna Berardi, Vincenzo Schiavone, Nunzio Velotti, Adam Abu Abeid, Cristina Manetti, Mario Musella
-
- P05.02 Retrospective comparison of oxidised regenerate cellulose and fibrin glue during sleeve gastrectomy (ID51)**
Sabrina Di Matteo, Adam Abu Abeid, Cristina Manetti, Giovanna Berardi, Antonio Vitiello, Mario Musella
-
- P05.03 Laparoscopic banded sleeve gastrectomy: single-centre experience (ID86)**
Michela Campanelli, Emanuela Bianciardi, Domenico Benavoli, Claudio Arcudi, Paolo Gentileschi
-
- P05.04 A case of esophageal dysmotility following Laparoscopic Sleeve Gastrectomy: anatomical causes or abnormalities of electrical activity? (ID100)**
Martina Marrelli, Vincenzo Bruni, Alessandra Panichelli, Giuseppe Spagnolo, Ida Francesca Gallo
-
- P05.05 WITHDRAWN**
-
- P05.06 Concomitant Hiatal Hernia Repair with Sleeve Gastrectomy: Can Gastroesophageal Reflux be alleviated? (ID120)**
Arun Kumar, Sandeep Aggarwal
-
- P05.07 Sleeve gastrectomy before right hemihepatectomy in obese patients (ID129)**
Kira Keller, Barbara Jacobi, Akram Gharbi, Gregor Alexander Stavrou
-
- P05.08 Better safe than sorry: Prevention of peroneuslesion with dedicated follow-up (ID130)**
Kira Keller, Barbara Jacobi, Akram Gharbi, Gregor Alexander Stavrou
-
- P05.09 Long-Term Outcomes of Sleeve Gastrectomy as a Primary Bariatric Surgery in 611 Patients with Morbid Obesity (ID131)**
Asnat Raziel, Kim Soifer, David Goitein, Keren Hod, Shiri Sherf-Dagan, Yafit Kessler, Dana Adelson, Reut Biton, Nasser Sakran
-
- P05.10 Long-Term Outcome of Primary versus Revisional Sleeve Gastrectomy after Failed Gastric Banding: A Retrospective, Matched Case-Control Study (ID132)**
Asnat Raziel, Sharon Soued, David Goitein, Keren Hod, Shiri Sherf-Dagan, Yafit Kessler, Dana Adelson, Reut Biton, Nasser Sakran
-
- P05.11 Association between Helicobacter pylori infection and staple-line leak in patients with morbid obesity undergoing laparoscopic sleeve gastrectomy (ID138)**
Saleh A Alqahtani, Fahad Bamehriz, Habeeb Ibrahim Abdul Razack, Hani Tamim, Albaraa H Kazim
-

- P05.12 Is weight and BMI loss comparable between robotic and laparoscopic sleeve gastrectomy?** (ID143)
Alejandro David Bueno Cañones, Martin Bailón Cuadrado, Francisco Javier Tejero Pintor, Pilar Pinto Fuentes, Enrique Asensio Diaz, Fernando Acebes Garcia, Pablo Marcos Santos, Sandra Veleda Belanche, Jose Luis Maestro De Castro, Andrea Carlota Lizarralde Capelastegui, David Pacheco Sanchez
- P05.13 Feasibility and safety of same-day discharge after Laparoscopic Roux-en-Y Gastric Bypass in patients with well-regulated Obstructive Sleep Apnea: preliminary results** (ID14)
Suzanne Kleipool, Ruben Van Veen, Steve De Castro, Pim Van Rutte
- P05.14 Management strategies of anastomotic ulcer after gastric bypass and risk factors of recurrence** (ID15)
Ophélie Bacoëur-Ouzillou, Maud Robert
- P05.15 A comparative analysis between primary banded and non-banded Roux-en-Y gastric bypass: a retrospective series of almost 13.000 patients** (ID25)
Marleen Romeijn, Stijn Van Hoef, Loes Janssen, Wouter Leclercq, Arijan Luijten, Kevin Gottgens, Jan Willem Greve, Francois Van Dielen
- P05.16 Development of a rating scale for gastric bypass surgery: Expert consensus using a modified Delphi process** (ID69)
Monika E. Hagen, Lela Dimonte, Danyal Fer, Keith Kim, Pablo Garcia
- P05.17 Extreme rare etiology of anastomotic stricture post gastric bypass** (ID128)
Biborka Bereczky, Rahila Bhatti, Usama Warshow, Mazin Aljabiri, Mona Joumaa, Patrick Noel
- P05.18 One-anastomosis gastric bypass revision for gastro-esophageal reflux disease: Long versus short biliopancreatic limb Roux-en-Y gastric bypass** (ID21)
Tigran Poghosyan, Ahmad Tarhini, Clement Baratte, Sylvia Krivan, Jean-Marc Chevallier
- P05.19 Anastomotic ulcer perforation following One Anastomosis Gastric Bypass** (ID62)
Adam Abu Abeid, Jawad Tome, Guy Lahat, Shai Meron Eldar, Danit Dayan
- P05.20 Laparoscopic Banded One Anastomosis Gastric Bypass: Short and Mid-term Results** (ID87)
Michela Campanelli, Emanuela Bianciardi, Domenico Benavoli, Claudio Arcudi, Paolo Gentileschi
- P05.21 Comparing the Efficacy and Safety of Roux-en-Y Gastric Bypass with One-Anastomosis Gastric Bypass with a Biliopancreatic Limb of 200 or 160 cm: 5-Year Results of the Indraprastha Apollo Hospital** (ID93)
Abhishek Tiwari, Arun Prasad, Deeba Siddique
- P05.22 Early Outcome of One Anastomosis Gastric Bypass in 6,722 Patients: Results from the Assuta Surgery Registry** (ID127)
Nasser Sakran, Uri Kaplan, Shiri Sherf-Dagan, Bella Azaria, Keren Hod, Asnat Raziel
- P05.23 Outcomes of endoscopic sleeve gastropasty in the elder population** (ID83)
Maria Valeria Matteo, Vincenzo Bove, Valerio Pontecorvi, Martina De Siena, Giorgio Carlino, Nausicaa Antonini, Chiara Massari, Giulia Giannetti, Guido Costamagna, Ivo Boškoski

- P05.24 Pouch revision in combination with Minimizer placement as revisional procedure in patients with insufficient weight loss/weight regain post-RYGB (REPOBA) (ID44)**
Sophie Caroline Van Helmond, Marijn Jense, Inge Palm-Meinders, Evelien De Witte, Sofie Fransen, Jan-Willem Greve, Evert-Jan Boerma
- P05.25 Peroperative Administration of Tranexamic acid in patient receiving Roux-en-Y gastric bypass or one-anastomosis gastric bypass to reduce hemorrhage rates (PATRY) (ID107)**
Judith 'T Hart, Bo Noordman, Jan Apers, Martin Dunkelgrun
- P05.26 Development of a standard set for health-related quality of life in obesity treatment research: results of a global multidisciplinary consensus meeting (ID11)**
Phillip Dijkhorst, Caroline Terwee, Claire De Vries, Valerie Monpellier, Ignace Janssen, Ronald Liem, Bart Van Wagenveld
- P05.27 Complete reduction of leg pain after bariatric surgery in lytic spondylolisthesis: Results from two consecutive patients with morbid obesity (ID39)**
Jeroen G.J. Huybregts, Ronald S.L. Liem, Wilco C. Peul, Niels A. Van Der Gaag
- P05.28 Marginal Ulcer after Gastric Bypass – Recourse to Principles of Ulcer Surgery (ID52)**
Ansgar Röhrborn, Markus Gellenbeck, Ulrich Tappe, Josef Kossow, Radu Pantea
- P05.29 Artificial intelligence usage in bariatric surgery (ID53)**
Ashok Puranik
- P05.30 A study on short-term nutrition deficiency after Sleeve gastrectomy and Mini gastric bypass (ID94)**
Abhishek Tiwari, Arun Prasad, Deepak Bharadwaj, Deeba Siddique
- P05.31 Controlled Attenuation Parameter vs liver biopsy for hepatic steatosis diagnosis: a new gold standard? (ID103)**
Alessandra Panichelli, Ida Francesca Gallo, Martina Marrelli, Giuseppe Spagnolo, Vincenzo Bruni

IFSO-EC Poster Session II

Poster Networking II

Friday, May 6, 2022, 18:00-19:00

- P05.32 Robot-assisted Revisional Bariatric Surgery. A Retrospective Review of Cases and Experience from a European High-Volume Center (ID54)**
Ramon Vilallonga, Arturo Cirera De Tudela, Amador García Ruiz De Gordejuela, Enric Caubet, Óscar González, Miriam Moratal, Martín Huerta, Marta Comas, Andreea Ciudin, Manel Armengol
-
- P05.33 Robotic-assisted Bariatric Surgery: A Retrospective Analysis of more than 500 cases performed at a European Center of Excellence (ID55)**
Arturo Cirera De Tudela, Ramon Vilallonga, Amador García Ruiz De Gordejuela, Óscar González, Enric Caubet, Daniel Herms, Miriam Moratal, Martín Huerta, Marta Comas, Andreea Ciudin, José Manuel Fort, Manel Armengol
-
- P05.34 First experiences of the Senhance™ surgical roboter system in robotic-assisted laparoscopic sleeve gastrectomy (ID133)**
Pauline Aeschbacher, Gian Andrea Prevost, Tobias Haltmeier, Dino Kröll, Yves Borbély, Philipp C. Nett
-
- P05.35 Robotic-assisted laparoscopic Roux-en-Y gastric bypass: first experience with the Senhance™ surgical system (ID134)**
Pauline Aeschbacher, Gian Andrea Prevost, Tobias Haltmeier, Dino Kröll, Yves Borbély, Philipp C. Nett
-
- P05.36 Development of a blended-care intervention for weight regain after bariatric surgery; an intervention mapping approach (ID76)**
Vera Voorwinde, Maartje Van Stralen, Valerie Monpellier, Ignace Janssen, Ingrid Steenhuis
-
- P05.37 What are the consequences of bariatric surgery in terms of healthcare use and costs? (ID8)**
Valerie Monpellier, Rose Geurten, Ignace Janssen, Dirk Ruwaard, Jeroen Struijs, Peter Van Dijk, Arianne Elissen, Henk Bilo
-
- P05.38 A scoping review of outdoor food marketing: exposure, power and impacts on eating behaviour and health (ID65)**
Amy Finlay, Eric Robinson, Andrew Jones, Michelle Maden, Caroline Cerny, Magdalena Muc, Rebecca Evans, Harriet Makin, Emma Boyland
-
- P05.39 Regulation of GDF11 in cerebrospinal fluid by acute endurance exercise in healthy young individuals (ID84)**
Karin Malenovská, Martin Schön, Michal Nemec, Nikoleta Alchus Laiferová, Igor Straka, Zuzana Košutzká, Peter Matejička, Peter Valkovič, Jozef Ukropec, Barbara Ukropcová
-
- P05.40 T and B cell composition and cytokine producing capacity before and after bariatric surgery (ID106)**
A. E. Taselaar, L. H. Wijngaarden, F. Nuijten, E. Van Der Harst, R.A. Klaassen, T.M. Kuijper, F. Jongbloed, G. Ambagtsheer, M. Klepper, J.N.M. Ijzermans, R.W.F. De Bruin, N.H.R. Litjens
-

- P05.41 Personal characteristics and level of anxiety in overweight and obese adolescents (ID113)**
Margarita Gurova, Pavel Vorontsov, Marina Komissarova, Nina Evdokimova, Alexey Balashov, Anna Zavyalova, Evgenia Milner, Valeria Novikova
- P05.42 Maternal obesity and the level of IGF1 in children of different age groups (ID114)**
Pavel Vorontsov, Alevtina Pokhlebkina, Natalia Prokopyeva, Yuri Petrenko, Dmitry Ivanov, Olga Gurina, Alexander Blinov, Olga Varlamova, Margarita Gurova, Valeria Novikova
- P05.43 Incidence and the yield of diagnostic tests for abdominal complaint after bariatric surgery with a minimum of 5-years follow-up (ID71)**
Bram Suurmond, Suzanne Kleipool, Pim Van Rutte, Hendrik Marsman, Ruben Van Veen, Steve De Castro
- P05.44 Analysis of the Management of Cholelithiasis in Bariatric Surgery Patients: a Single-Center Experience (ID102)**
Carlos Petrola Chacón, Ramon Vilallong, Oscar González, Amador García Ruíz De Gordejuela, Enric Caubet, Marc Beisani, José Fort, Manel Armengol
- P05.45 Remission of type 2 diabetes five years after metabolic surgery (ID105)**
Randi Gamlestøl, John Roger Andersen, Villy Våge
- P05.46 Bone mass density in patients aged 65 years or older undergoing bariatric surgery (ID125)**
Giovanna Cavanha Corsi, Moisés Carmo Dos Anjos Pinheiro, Ana Paula Silva Caldas, Daniel José Szor, Maria Carolina Gonçalves Dias, Marco Aurelio Santo, Denis Pajewski
- P05.47 Outcome of rescue surgery for gastric fistula following laparoscopic sleeve gastrectomy (ID136)**
Amedea Agnes, Luigi Ciccoritti, Francesco Greco, Giulia Salvi, Francesco Pennestri, Pierpaolo Gallucci, Luca Sessa, Carmela De Crea, Ivo Boskoski
- P05.48 Sleeve gastrectomy with posterior fundoplication: initial surgery and intraoperative management of wrap perforation (ID144)**
Thierry Bege, Thomas Delayre, Pauline Duconseil
- P05.49 Influence of psychological and behavioral factors on weight loss after bariatric surgery: a systematic review and meta-analysis (ID18)**
Anne Jacobs, Valerie Monpellier, Evangelia Antoniou, Ignace Janssen, Rob Tollenaar, Anita Jansen
- P05.50 Similar decrease in dietary intake of sweet and fat tastes compared to other tastes after bariatric surgery (ID60)**

Instruction for Oral Presentations

Session Halls and Audiovisual Equipment

All session halls are equipped with standard PowerPoint presentation facilities. All presentations will be networked to the appropriate room from "Speakers' Ready Room" (located in the meeting room 0.6 Madrid) and your presentation must be submitted to the "Speakers' Ready Room" at least 30 minutes in advance of your session.

We kindly ask you to bring your presentation on USB (memory stick) to the Speakers' Ready Room (meeting room 0.6 Madrid) where the technicians will upload the presentation into the system.

A technician is available in every session room to provide assistance when needed. Due to the online presentation system, all speakers are kindly requested to use provided PC onsite. Please be present in the session room 15 minutes prior to the start of your session and follow the instructions from the Chairs and/or technician. During your presentation, a remote control will be available for controlling your presentation. Please observe the time allotted to you as you will not be permitted to speak for a longer time. At the end of the Congress, all presentations will be deleted from the presentation system and computers on-site.

- screen (ratio 16:9)
- PC (laptop) (will be put on the „lectern“, it is connected via LAN with the speakers' ready room)
- data projector (beamer)
- presenter (remote control)
- sound system and microphones (for lectern, head table, auditorium)
- webcam (for the remote speakers)
- tablet device for head table (serves to chairpersons for managing remote Q&A)

Speakers' Ready Room

All speakers are asked to upload their presentation at the Speakers' Ready Room (located in the meeting room 0.6 Madrid) at least 30 minutes before the beginning of the session or the day before in case of a morning session.

Opening Hours of the Speakers' Ready Room

Wednesday, May 4, 2022	07:00-19:30
Thursday, May 5, 2022	07:30-18:30
Friday, May 6, 2022	07:30-18:30
Saturday, May 7, 2022	07:30-14:00

Instructions for IFSO-EC Poster Presentation

Posters are on display all Congress days

Poster Mounting and Removal Times

- All posters can be mounted from 09:00 on Wednesday, 4 May 2022 (please note you will not have access to the poster area before that – please do not attempt to mount your poster before this time)
- Posters will be removed and discarded if not removed by 14:00 on Saturday, 7 May 2022

Poster sessions

Poster session I		
Poster viewing	Thursday, May 5, 2022	13:00-14:45
Poster networking	Thursday, May 5, 2022	18:00-19:00
Poster session II		
Poster viewing	Friday, May 6, 2022	13:00-14:45
Poster networking	Friday, May 6, 2022	18:00-19:00

Authors are requested to be present at the poster board and available to answer questions from delegates at the time assigned to their „Poster networking“ session. Posters will be displayed according to the POSTER numbers given by the organizers and will be grouped by topics.

Personal or Professional advertising in the poster sessions is also strictly prohibited.

Technical Instructions

- Posters must be prepared in Portrait style, please DO NOT prepare a landscape poster
- The poster should be easily readable at a distance of one meter.
- Poster panels' dimensions: each panel has dimensions 95 cm (width) x 136 cm (height)
- The required dimensions of posters are 90 cm (width) by 130 cm (height).
- Posters should be attached to the boards with velcro stickers/ pins, which will be supplied by the organizers.

Poster Networking

All delegates and speakers are advised to take their valuables with them during the coffee and lunch breaks to avoid any potential theft. The Organizing Committee will not be responsible for any losses incurred.

Liability

The ZoomForward 22 Congress Secretariat will not be liable for personal accidents or losses or damage to private property of registered participants of the ZoomForward 22. Participants should make their arrangements with respect to personal insurance.

Emergency Number

The European emergency number: 112

Accreditation

We are pleased to inform you that the ZoomForward 2022: Joint European Congress on Obesity of the European Association of the Study of Obesity and the International Federation for the Surgery of Obesity and Metabolic Disorders – European Chapter (IFSO-EC) was granted 21 European CME credits (ECMEC[®]s) by the European Accreditation Council for Continuing Medical Education (EACCME[®]).

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form.

Wednesday, May 4, 2022	6.00
Thursday, May 5, 2022	6.00
Friday, May 6, 2022	6.00
Saturday, May 7, 2022	3.00

The ZoomForward 2022: Joint European Congress on Obesity of the European Association of the Study of Obesity and the International Federation for the Surgery of Obesity and Metabolic Disorders-European Chapter, Maastricht, Netherlands, May 4-7, 2022 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME[®]) with 21 European CME credits (ECMEC[®]s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME[®] credits to an equivalent number of AMA PRA Category 1 Credits[™]. Information on the process to convert EACCME[®] credit to AMA credit can be found at:

www.ama-assn.org/education/earn-creditparticipation-international-activities.

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME[®] for ECMEC[®]s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

Accreditation Certificate

The accreditation Certificate will be available to download at the www.zoomforward22.org one week after the end of the congress.

Abstract Book

All abstracts are available for ZoomForward 22 participants at the www.zoomforward22.org

Karel van Tiel - Executive Chef Albron

Karel works as an executive Chef at Albron since 2008. In this role, he has worked i.e. for party productions, event catering ('Holland Heineken House') and at Albron' headquarters. But although Karel is a real allrounder, he feels most passionate about nutrition in care and cure facilities. With contagious passion and tireless drive, he takes on the responsibility to make patients and clients enjoy eating again. When asked to provide 'life-cooking' during this symposium, Karel was immediately very enthusiastic. He sure loves to 'puzzle', meaning building tasty recipes prompted by a range of conditions, such as high nutritional value, personal preferences, surgery-related discomforts, high-practicality and for every budget. Bon Appetit!

For those attending in person, lunch will be provided in the form of a tasting menu.

Get Ready[®] for bariatric surgery

Remote patient management for truly connected care

What is Get Ready[®]?

Get Ready[®] is a digital, remote patient management solution that aims to optimize the entire bariatric care pathway, from patient preparation to post-intervention follow-up.

Get Ready[®] helps you create a closer connection to your bariatric patients and empowers them to manage their own health. Its integrated communications enable remote patient preparation and monitoring, and provide education and advice.

With Get Ready[®] you can now care more closely – from a distance.

Ethicon «Lunch & Learn» Symposium

Elevating Patient Engagement and Quality of Care to the next Level

Thursday, May 5th, 2022
13:15 -14:15 CEST

MECC Maastricht, Netherlands
0.11 Hall

Speaker

Prof. Karl Miller (moderator)
Johnson & Johnson Chief Medical Officer
Emerging Markets

Prof. Dr. med. Marco Bueter, PhD
Head Bariatric & Metabolic Surgery Program,
University hospital Zurich, Switzerland

Dr. Alessandro Giovanelli
Chief Physician Obesity Center of Istituto
Clinico Galeazzi Sant' Ambrogio in Milan, Italy

Overview

The Johnson & Johnson Institute kindly invites you to the symposium about
“Patient Engagement and Quality of Bariatric Care”.

Connecting, educating and supporting patients with obesity along the care pathway in an efficient way as well as standardizing the surgical procedure and driving OR digitalization are crucial to improve patients experience and outcomes, while driving down the cost of care.

Prof. Bueter and Dr. Giovanelli will share their successful patient engagement strategies and discuss how to ensure a consistent high quality of care for patients with obesity in and outside the operating theatre.

Program:

13:15 CEST*	Welcome & introduction of the faculty and topic	Prof. Miller
13:20 CEST	Patient Engagement and Care Coordination	Prof. Bueter
13:30 CEST	Patient Engagement Solutions Experience from Italy	Dr. Giovanelli
13:45 CEST	Panel Discussion and Q&A	Prof. Miller Prof. Bueter Dr. Giovanelli
13:55 CEST	Digitalizing the OR to ensure OR efficiency and a consistent high quality of bariatric care	Dr. Giovanelli
14:05 CEST	Panel Discussion and Q&A	Prof. Miller Prof. Bueter Dr. Giovanelli
14:15 CEST	End	

*CEST - Central European Summer Time

Please note that Lunch box will be provided.
